

Syllabus: English grammar, Sentence completion. Verbal analogies, Word groups. Instructions, Critical reasoning and Verbal deduction

Mark Distribution in Previous GATE

Year	2026 - 1	2026 - 2	2025 - 1	2025 - 2	2024 - 1	2024 - 2	2023	2022	2021 - 1	2021 - 2	Minimum
1 Mark Count	1	1	2	2	1	1	2	1	2	2	1
2 Marks Count	0	0	1	0	1	1	1	1	1	1	0
Total Marks	1	1	4	2	3	3	4	3	4	4	1

Welcome to the "General Aptitude: Verbal Aptitude" chapter of your GATE Computer Science exam preparation. This section is designed to equip you with the essential linguistic and reasoning skills necessary to excel in the verbal aptitude segment of the GATE exam. Verbal Aptitude assesses your comprehension of English language, grammar, vocabulary, and logical reasoning abilities, which are crucial not just for the exam but also for effective communication in your professional career. Typically, verbal aptitude questions constitute a significant portion (around 5-8 marks out of 15 for General Aptitude) and can range from direct vocabulary and grammar questions to more complex reading comprehension and logical deduction problems. Mastering these topics can significantly boost your overall GATE score.

Topic-wise Key Concepts

Antonyms

Definition and core idea: Antonyms are words that have opposite meanings. Understanding antonyms enhances vocabulary and comprehension by highlighting contrasts in meaning.

- **Key properties and identities:**

- Antonyms can be absolute (e.g., hot/cold) or relative (e.g., happy/sad).
- Often formed by adding prefixes (e.g., *un-*, *dis-*, *in-*, *im-*, *non-*) to a word.
- Context is crucial; a word can have different antonyms depending on its usage.

- **Common pitfalls:**

- Choosing a word that is merely different, not opposite.
- Ignoring prefixes/suffixes that might indicate an antonym.
- Misinterpreting the nuance of the given word.

- **Standard problem-solving techniques:**

1. Understand the exact meaning of the given word.
2. Look for prefixes that reverse meaning (e.g., *capable* -> *incapable*).
3. Consider the context if the word has multiple meanings.
4. Eliminate options that are synonyms or unrelated.
5. If unsure, try to use the options in a sentence to see which one creates an opposite meaning.

Articles

Definition and core idea: Articles are words (a, an, the) that define whether a noun is specific or unspecific. They are determiners that precede nouns.

- **Important formulas, theorems, and results:**

1. **Indefinite Article 'a':** Used before singular, countable nouns that begin with a consonant sound. E.g., *a* book, *a* university (starts with 'y' sound).
2. **Indefinite Article 'an':** Used before singular, countable nouns that begin with a vowel sound. E.g., *an* apple, *an* hour (starts with 'o' sound).
3. **Definite Article 'the':** Used before specific or unique nouns, or nouns that have been previously mentioned. E.g., *the* sun, *the* book I read yesterday.
4. **Zero Article:** No article is used before plural countable nouns, uncountable nouns, proper nouns, or abstract nouns when speaking generally. E.g., *water* is essential, *students* learn.

- **Key properties and identities:**

- 'A' and 'an' are used for general or non-specific items.
- 'The' is used for specific or previously identified items.
- Sound, not spelling, determines 'a' vs. 'an'.

- **Common pitfalls:**

- Confusing 'a' and 'an' based on spelling rather than sound.

- Overusing 'the' with general nouns or proper nouns.
- Omitting articles where they are required for singular countable nouns.
- **Standard problem-solving techniques:**
 1. Identify if the noun is singular/plural, countable/uncountable.
 2. Determine if the noun is specific or general in the context.
 3. Pay attention to the initial sound of the word following the article.
 4. Check for common phrases or idioms that require specific article usage.

Comparative Forms

Definition and core idea: Comparative forms of adjectives and adverbs are used to compare two things, while superlative forms are used to compare three or more things.

- **Important formulas, theorems, and results:**
 1. **One-syllable adjectives/adverbs:** Add *-er* for comparative, *-est* for superlative. E.g., *tall* → *taller* → *tallest*.
 2. **Two-syllable adjectives ending in -y:** Change *-y* to *-i* and add *-er/-est*. E.g., *happy* → *happier* → *happiest*.
 3. **Two or more syllable adjectives/adverbs:** Use *more* for comparative, *most* for superlative. E.g., *beautiful* → *more beautiful* → *most beautiful*.
 4. **Irregular forms:** Some words have irregular comparative/superlative forms. E.g., *good* → *better* → *best*; *bad* → *worse* → *worst*; *much/many* → *more* → *most*.
 5. **Comparison structure:** Comparative forms are often followed by *than*. E.g., *X is taller than Y*.
- **Key properties and identities:**
 - Do not use double comparatives/superlatives (e.g., "more happier" is incorrect).
 - Ensure logical comparison (comparing like with like).
- **Common pitfalls:**
 - Using "more" or "most" with *-er* or *-est* endings.
 - Incorrectly forming irregular comparatives/superlatives.
 - Making illogical comparisons (e.g., "My car is faster than John").
- **Standard problem-solving techniques:**
 1. Count the syllables of the adjective/adverb.
 2. Check for irregular forms.
 3. Ensure the comparison is grammatically and logically sound.

English Grammar

Definition and core idea: English grammar refers to the set of structural rules governing the composition of clauses, phrases, and words in the English language. It ensures clarity and correctness in communication.

- **Important formulas, theorems, and results:**
 1. **Basic Sentence Structure:** *Subject + Verb + Object* (SVO) is the most common structure. E.g., *She reads a book*.
 2. **Parts of Speech:** Nouns, Pronouns, Verbs, Adjectives, Adverbs, Prepositions, Conjunctions, Interjections. Each has specific roles.
 3. **Subject-Verb Agreement:** The verb must agree in number with its subject. E.g., *He runs* (singular); *They run* (plural).
 4. **Tense Consistency:** Maintain a consistent tense throughout a sentence or paragraph unless there's a specific reason to change.
 5. **Parallelism:** Similar items in a series or comparison should be in the same grammatical form. E.g., *Helikes swimming, hiking, and cycling*.
- **Key properties and identities:**
 - Grammar provides the framework for meaningful sentences.
 - Correct grammar prevents ambiguity and misinterpretation.
- **Common pitfalls:**
 - Errors in subject-verb agreement, pronoun agreement, and tense usage.
 - Lack of parallelism.
 - Misplaced modifiers.
 - Incorrect punctuation.
- **Standard problem-solving techniques:**
 1. Break down the sentence into its core components (subject, verb, object).
 2. Identify the part of speech for each word.
 3. Check for agreement (subject-verb, pronoun-antecedent).

4. Look for consistency in tense and structure.
5. Read the sentence aloud to catch awkward phrasing or obvious errors.

Grammatical Error

Definition and core idea: Grammatical errors are mistakes in the structure or usage of language that violate standard English grammar rules. Identifying and correcting them is key to effective communication.

- **Key properties and identities:**
 - Common error types include subject-verb agreement, pronoun agreement, tense consistency, parallelism, misplaced modifiers, comma splices, run-on sentences, fragment sentences, and incorrect word choice.
- **Common pitfalls:**
 - Overlooking subtle errors, especially in complex sentences.
 - Focusing only on obvious errors and missing nuanced ones.
 - Not knowing the specific rule being tested.
- **Standard problem-solving techniques:**
 1. Read the sentence carefully, looking for any awkward phrasing.
 2. Check for subject-verb agreement (singular subject, singular verb; plural subject, plural verb).
 3. Verify pronoun-antecedent agreement (pronoun matches the noun it refers to in number and gender).
 4. Ensure tense consistency throughout the sentence.
 5. Look for parallel structure in lists or comparisons.
 6. Identify misplaced or dangling modifiers.
 7. Check for correct use of articles, prepositions, and conjunctions.
 8. Consider punctuation errors.

Incorrect Sentence Part

Definition and core idea: This question type presents a sentence divided into several parts, one of which contains a grammatical error. The task is to identify the erroneous part.

- **Key properties and identities:**
 - Errors can span any grammatical rule: subject-verb agreement, tense, pronouns, articles, prepositions, parallelism, vocabulary, etc.
 - Often, the error is subtle and requires careful attention to detail.
- **Common pitfalls:**
 - Rushing through the sentence and missing the error.
 - Fixating on one type of error and ignoring others.
 - Assuming a part is correct because it "sounds" okay.
- **Standard problem-solving techniques:**
 1. Read the entire sentence first to understand its meaning and flow.
 2. Examine each part individually, checking for common grammatical errors:
 - **Subject-Verb Agreement:** Does the verb match the subject in number?
 - **Tense:** Is the tense consistent and appropriate for the context?
 - **Pronouns:** Do pronouns agree with their antecedents in number, gender, and case?
 - **Articles/Prepositions:** Are they used correctly?
 - **Parallelism:** Are items in a list or comparison structured similarly?
 - **Word Choice/Vocabulary:** Is the correct word used (e.g., affect vs. effect)?
 - **Modifiers:** Are adjectives and adverbs placed correctly?
 3. If no error is found, consider the "No Error" option if available.

Most Appropriate Word

Definition and core idea: This involves choosing the word that best fits the meaning and context of a given sentence or passage from a set of options.

- **Key properties and identities:**
 - Requires strong vocabulary and understanding of nuances in word meanings.
 - Context is paramount; a word might be grammatically correct but semantically inappropriate.
- **Common pitfalls:**
 - Choosing a word that is a near-synonym but doesn't fit the exact context.
 - Ignoring the tone or register of the sentence.
 - Misinterpreting the overall meaning of the sentence.

- **Standard problem-solving techniques:**

1. Read the sentence carefully to grasp its full meaning and tone.
2. Consider the part of speech required for the blank (noun, verb, adjective, adverb).
3. Substitute each option into the sentence.
4. Evaluate which option makes the most sense semantically and grammatically.
5. Look for collocations (words that naturally go together) or idiomatic expressions.
6. Eliminate options that are clearly incorrect in meaning or grammar.

Narrative Sequencing

Definition and core idea: This task involves arranging a set of jumbled sentences or paragraphs into a coherent and logical narrative sequence.

- **Key properties and identities:**

- A coherent narrative follows a logical progression, often chronological, cause-and-effect, or problem-solution.
- Transition words and pronouns are crucial clues.

- **Common pitfalls:**

- Ignoring transition words or pronoun references.
- Focusing only on the first sentence and not the overall flow.
- Assuming a chronological order when a different logical order is intended.

- **Standard problem-solving techniques:**

1. **Identify the opening sentence:** Look for sentences that introduce a topic, character, or setting, often without pronouns or conjunctions referring to previous sentences.
2. **Identify transition words/phrases:** Words like *however, therefore, meanwhile, subsequently, in addition, finally*, etc., indicate relationships between sentences.
3. **Look for pronoun references:** A pronoun (he, she, it, they, this, that) must refer back to a noun introduced in a previous sentence.
4. **Establish cause-and-effect or chronological order:** Determine if events follow a time sequence or if one event leads to another.
5. **Identify the concluding sentence:** Look for sentences that summarize or provide a final thought.
6. **Form pairs:** Try to identify two sentences that logically follow each other.
7. **Read the assembled sequence:** Once you have an order, read it through to ensure it flows logically and makes sense.

Noun Verb Adjective

Definition and core idea: This topic focuses on understanding the definitions, functions, and interrelationships of nouns (naming words), verbs (action/state words), and adjectives (describing words).

- **Important formulas, theorems, and results:**

1. **Noun:** Names a person, place, thing, or idea. Can be subject or object. E.g., *student, city, book, freedom*.
2. **Verb:** Expresses an action, occurrence, or state of being. E.g., *run, become, is*.
3. **Adjective:** Modifies or describes a noun or pronoun. Answers questions like "which one?", "what kind?", "how many?". E.g., *happy, blue, three*.
4. **Common Suffixes:**
 - Nouns: *-tion, -sion, -ment, -ness, -ity, -ance, -ence, -er, -or* (e.g., *information, development, happiness*).
 - Verbs: *-ate, -ify, -ize, -en* (e.g., *activate, simplify, modernize*).
 - Adjectives: *-ful, -less, -able, -ible, -ous, -ic, -al, -y* (e.g., *beautiful, hopeless, capable*).

- **Key properties and identities:**

- A word's function (noun, verb, adjective) can change based on context (e.g., "run" as a verb vs. "a run" as a noun).
- Understanding these parts of speech is fundamental to sentence construction and error identification.

- **Common pitfalls:**

- Confusing words that have similar forms but different parts of speech (e.g., "advice" (noun) vs. "advise" (verb)).
- Incorrectly identifying the function of a word in a sentence.

- **Standard problem-solving techniques:**

1. Identify the word's role in the sentence (e.g., is it naming something, performing an action, or describing something?).
2. Look for common suffixes that indicate a specific part of speech.
3. Test the word by replacing it with a clear example of a noun, verb, or adjective to see if the sentence structure

remains valid.

Passage Reading

Definition and core idea: This involves reading a given passage and answering comprehension questions based on its content, including main idea, specific details, inference, and author's tone.

- **Key properties and identities:**

- Questions can be direct (explicitly stated in the text) or inferential (requiring logical deduction from the text).
- Understanding the main idea and supporting details is crucial.

- **Common pitfalls:**

- Reading too slowly or too quickly without comprehension.
- Making assumptions not supported by the text.
- Getting bogged down by unfamiliar vocabulary.
- Misinterpreting the author's intent or tone.

- **Standard problem-solving techniques:**

1. **Skim the passage first:** Read quickly to get a general idea of the topic, main argument, and structure. Pay attention to the first and last sentences of paragraphs.
2. **Read the questions:** Understand what information you need to find. This helps you focus your reading.
3. **Scan for keywords:** For specific detail questions, scan the passage for keywords from the question.
4. **Read carefully for answers:** When you locate relevant sections, read them thoroughly to understand the context and find the exact answer.
5. **Inferential questions:** Look for clues, implications, and logical connections within the text. Avoid bringing in outside knowledge.
6. **Main idea questions:** Often found in the introduction or conclusion, or can be derived from summarizing the key points.
7. **Vocabulary in context:** Use surrounding words and sentences to deduce the meaning of unfamiliar words.

Phrasal Verb

Definition and core idea: A phrasal verb is a verb combined with a preposition or an adverb (or both) to create a new meaning that is often different from the original verb's meaning.

- **Important formulas, theorems, and results:**

1. *Verb + Preposition* (e.g., *look after* = care for)
2. *Verb + Adverb* (e.g., *break down* = stop functioning)
3. *Verb + Adverb + Preposition* (e.g., *look up to* = admire)

- **Key properties and identities:**

- Meanings are often idiomatic and cannot be deduced from the individual words.
- Can be separable (object can go between verb and particle) or inseparable.

- **Common pitfalls:**

- Assuming the literal meaning of the words.
- Confusing similar-looking phrasal verbs.
- Incorrectly using separable/inseparable phrasal verbs.

- **Standard problem-solving techniques:**

1. Memorize common phrasal verbs and their meanings.
2. Pay close attention to the context of the sentence to infer meaning.
3. If unsure, try to replace the phrasal verb with a single-word synonym to see if it fits.

Phrase Meaning

Definition and core idea: This involves understanding the meaning of idiomatic expressions, proverbs, or common phrases that often have a figurative meaning different from the literal interpretation of their individual words.

- **Key properties and identities:**

- Idioms are non-literal and culturally specific.
- Context is vital for interpreting the correct nuance of a phrase.

- **Common pitfalls:**

- Interpreting phrases literally.
- Confusing similar-sounding idioms.
- Not recognizing the figurative nature of the expression.

- **Standard problem-solving techniques:**

1. Read the sentence containing the phrase carefully to understand the overall context.
2. If the phrase is unfamiliar, try to infer its meaning from the surrounding words and the situation described.
3. Consider the options provided and see which one logically fits the context.
4. Eliminate options that represent a literal interpretation or are completely irrelevant.
5. Familiarity with common idioms and proverbs is the best preparation.

Prepositions

Definition and core idea: Prepositions are words that show the relationship between a noun or pronoun and other words in a sentence, indicating location, time, direction, or manner.

- **Important formulas, theorems, and results:**

1. **Prepositions of Place:**

- *in*: for enclosed spaces, cities, countries (e.g., *in the room*, *in India*).
- *on*: for surfaces, streets, specific days (e.g., *on the table*, *on Monday*).
- *at*: for specific points, addresses, events (e.g., *at the corner*, *at 5 PM*).

2. **Prepositions of Time:**

- *in*: for months, years, seasons, long periods (e.g., *in July*, *in 2023*).
- *on*: for specific days, dates (e.g., *on Friday*, *on August 15th*).
- *at*: for specific times (e.g., *at noon*, *at midnight*).

3. **Prepositions of Direction:** *to*, *into*, *onto*, *from*, *through*, *across*. E.g., *go to school*, *jump into the water*.

4. **Fixed Prepositional Phrases:** Many verbs, adjectives, and nouns are followed by specific prepositions (e.g., *afraid of*, *depend on*, *good at*).

- **Key properties and identities:**

- Prepositions always introduce a prepositional phrase, which includes a noun or pronoun (the object of the preposition).
- Their usage is often idiomatic and requires memorization.

- **Common pitfalls:**

- Confusing prepositions with similar meanings (e.g., "between" vs. "among").
- Incorrectly using fixed prepositional phrases.
- Omitting necessary prepositions or adding unnecessary ones.

- **Standard problem-solving techniques:**

1. Identify the relationship the preposition is trying to express (place, time, direction, etc.).
2. Check if the verb, adjective, or noun preceding the blank requires a specific preposition.
3. Consider the context and the object of the preposition.
4. Memorize common fixed prepositional phrases.

Pronouns

Definition and core idea: Pronouns are words that replace nouns to avoid repetition. They must agree with the nouns they refer to (antecedents) in number, gender, and case.

- **Important formulas, theorems, and results:**

1. **Types of Pronouns:**

- **Personal:** *I*, *you*, *he*, *she*, *it*, *we*, *they* (subjective); *me*, *you*, *him*, *her*, *it*, *us*, *them* (objective).
- **Possessive:** *mine*, *yours*, *his*, *hers*, *its*, *ours*, *theirs*.
- **Reflexive/Intensive:** *myself*, *yourself*, *himself*, *herself*, *itself*, *ourselves*, *yourselves*, *themselves*.
- **Relative:** *who*, *whom*, *whose*, *which*, *that*.
- **Demonstrative:** *this*, *that*, *these*, *those*.
- **Indefinite:** *everyone*, *somebody*, *nothing*, *all*, *many*, *few*.

2. **Pronoun-Antecedent Agreement:** A pronoun must agree with its antecedent in number (singular/plural) and gender (masculine/feminine/neuter). E.g., *The student* submitted *his* assignment. *The students* submitted *their* assignments.

3. **Pronoun Case:**

- **Subjective Case:** Used when the pronoun is the subject of a verb (e.g., *He* went).
- **Objective Case:** Used when the pronoun is the object of a verb or preposition (e.g., *She* saw *him*, *Give it* to *me*).

- **Key properties and identities:**

- Pronouns clarify sentences by preventing redundancy.
- Correct pronoun usage is essential for grammatical accuracy.

- **Common pitfalls:**

- Incorrect agreement in number or gender with the antecedent.
- Confusing subjective and objective cases (e.g., "between you and I" instead of "between you and me").
- Ambiguous pronoun reference (unclear what noun the pronoun refers to).
- Using "its" (possessive) vs. "it's" (it is).

- **Standard problem-solving techniques:**

1. Identify the pronoun and its antecedent (the noun it replaces).
2. Check for agreement in number (singular/plural) and gender.
3. Determine if the pronoun is acting as a subject or an object to choose the correct case.
4. Ensure the pronoun's reference is clear and unambiguous.

Sentence Ordering

Definition and core idea: Similar to Narrative Sequencing, this involves arranging jumbled parts of a single sentence (or a short paragraph) into a grammatically correct and logically coherent order.

- **Key properties and identities:**

- Focuses on sentence structure, grammatical rules, and logical flow within a single sentence or a very short set of related sentences.
- Often involves identifying the subject, verb, and object, and then arranging modifiers correctly.

- **Common pitfalls:**

- Creating grammatically incorrect structures.
- Producing a sentence that is grammatically correct but makes no logical sense.
- Misplacing modifiers, leading to ambiguity.

- **Standard problem-solving techniques:**

1. **Identify the subject and main verb:** These usually form the core of the sentence.
2. **Look for introductory phrases/clauses:** These often come at the beginning.
3. **Identify conjunctions:** Words like *and*, *but*, *or*, *because*, *while* connect clauses or phrases.
4. **Check for pronoun references:** Ensure pronouns follow their antecedents.
5. **Consider logical flow:** What event or idea logically precedes another?
6. **Read the assembled sentence:** Ensure it is grammatically correct, makes sense, and flows naturally.

Statement Sufficiency

Definition and core idea: In this type of question, a question is given, followed by two or more statements. You need to determine whether the information in the statements is sufficient to answer the question.

- **Key properties and identities:**

- Focus is on sufficiency, not necessarily on finding the answer itself.
- Statements are evaluated independently first, then together if neither is sufficient alone.

- **Common pitfalls:**

- Trying to solve the question instead of just checking sufficiency.
- Assuming information not explicitly given in the statements.
- Incorrectly combining statements.

- **Standard problem-solving techniques:**

1. **Analyze the question:** Understand exactly what information is required to answer it.
2. **Evaluate Statement 1 alone:** Can the question be answered using only the information in Statement 1? Ignore Statement 2.
3. **Evaluate Statement 2 alone:** Can the question be answered using only the information in Statement 2? Ignore Statement 1.
4. **Evaluate Statements 1 and 2 together:** If neither statement alone is sufficient, check if combining them provides enough information.
5. **Select the appropriate option:**
 - Statement 1 alone is sufficient.
 - Statement 2 alone is sufficient.
 - Either Statement 1 alone or Statement 2 alone is sufficient.
 - Both Statement 1 and Statement 2 together are sufficient (but neither alone).
 - Neither Statement 1 nor Statement 2 nor both together are sufficient.

Statements Follow

Definition and core idea: This involves analyzing a set of given statements (premises) and determining which

conclusion(s) logically follow from them, often based on principles of deductive reasoning.

- **Important formulas, theorems, and results:**

1. **Deductive Reasoning:** If the premises are true, the conclusion must be true.
 - Example: *All A are B. All B are C. Therefore, All A are C.*
2. **Categorical Syllogisms:** Often involve "All," "No," "Some" statements.
 - *All X are Y* (Universal Affirmative)
 - *No X are Y* (Universal Negative)
 - *Some X are Y* (Particular Affirmative)
 - *Some X are not Y* (Particular Negative)
3. **Venn Diagrams:** A useful tool for visually representing relationships between categories and testing the validity of conclusions.

- **Key properties and identities:**

- Conclusions must be derived solely from the given statements, without external knowledge.
- Focus on logical necessity, not probability or common sense.

- **Common pitfalls:**

- Bringing in outside knowledge or personal opinions.
- Making assumptions not supported by the statements.
- Confusing "some" with "all" or "none."
- Errors in interpreting negative statements.

- **Standard problem-solving techniques:**

1. **Read statements carefully:** Understand the exact meaning of each premise.
2. **Use Venn Diagrams:** Draw circles to represent the categories and their relationships as described by the statements.
3. **Test each conclusion:** Check if the conclusion is necessarily true based on your diagram or logical deduction. If there's even one scenario where the conclusion is false, it does not follow.
4. **Avoid assumptions:** Stick strictly to the information provided in the statements.

Synonyms

Definition and core idea: Synonyms are words that have the same or very similar meanings. Understanding synonyms expands vocabulary and allows for varied expression.

- **Key properties and identities:**

- Few words are perfect synonyms; most have slightly different connotations or contexts of use.
- Can often be identified by root words, prefixes, and suffixes.

- **Common pitfalls:**

- Choosing a word that is related but not a true synonym.
- Ignoring the context in which the word is used.
- Misinterpreting the nuance of the given word.

- **Standard problem-solving techniques:**

1. Understand the precise meaning of the given word.
2. Consider the context if the word has multiple meanings.
3. Look for words with similar roots or derivations.
4. Substitute each option into a sentence where the original word is used to see which one fits best.
5. Eliminate options that are antonyms or unrelated.

Tenses

Definition and core idea: Tenses indicate the time an action occurs (past, present, future) and its aspect (simple, continuous, perfect, perfect continuous), showing whether an action is completed, ongoing, or habitual.

- **Important formulas, theorems, and results:**

1. **Simple Present:** $S + V1 + (s/es)$ (for 3rd person singular). Used for habits, facts, scheduled events. E.g., *He walks.*
2. **Present Continuous:** $S + is/am/are + V - ing$. Used for actions happening now or temporary actions. E.g., *He is walking.*
3. **Present Perfect:** $S + has/have + V3$. Used for actions completed in the past but with present relevance. E.g., *He has walked.*
4. **Present Perfect Continuous:** $S + has/have + been + V - ing$. Used for actions that started in the past and continue to the present. E.g., *He has been walking.*

5. **Simple Past:** $S + V2$. Used for completed actions in the past. E.g., *He walked*.
 6. **Past Continuous:** $S + was/were + V - ing$. Used for actions ongoing in the past. E.g., *He was walking*.
 7. **Past Perfect:** $S + had + V3$. Used for an action completed before another past action. E.g., *He had walked* before I arrived.
 8. **Past Perfect Continuous:** $S + had + been + V - ing$. Used for an action ongoing up to a point in the past. E.g., *He had been walking* for an hour when I saw him.
 9. **Simple Future:** $S + will/shall + V1$. Used for future actions. E.g., *He will walk*.
 10. **Future Continuous:** $S + will/shall + be + V - ing$. Used for actions ongoing at a specific time in the future. E.g., *He will be walking*.
 11. **Future Perfect:** $S + will/shall + have + V3$. Used for actions that will be completed by a certain time in the future. E.g., *He will have walked* 10 km by then.
 12. **Future Perfect Continuous:** $S + will/shall + have + been + V - ing$. Used for actions that will have been ongoing up to a point in the future. E.g., *He will have been walking* for two hours.
- **Key properties and identities:**
 - Tense consistency is crucial within a sentence or paragraph.
 - Time markers (e.g., yesterday, now, next week, since, for) often indicate the appropriate tense.
 - **Common pitfalls:**
 - Incorrectly mixing tenses within a sentence.
 - Confusing similar tenses (e.g., simple past vs. present perfect).
 - Incorrect verb forms (V1, V2, V3).
 - **Standard problem-solving techniques:**
 1. Identify the time frame of the action (past, present, future).
 2. Determine the aspect (simple, continuous, perfect, perfect continuous) based on whether the action is completed, ongoing, or has relevance to another time.
 3. Look for time expressions or other verbs in the sentence that provide clues about the correct tense.
 4. Ensure tense consistency, especially in complex sentences or reported speech.

Verbal Reasoning

Definition and core idea: Verbal Reasoning assesses the ability to understand and logically process information presented in words, including analogies, critical reasoning, and logical deduction from textual information.

- **Key properties and identities:**
 - Requires analytical thinking and the ability to identify patterns, relationships, and logical fallacies.
 - Often involves drawing conclusions, identifying assumptions, or evaluating arguments.
- **Common pitfalls:**
 - Making assumptions not explicitly stated.
 - Confusing correlation with causation.
 - Allowing personal bias to influence judgment.
 - Misinterpreting logical connectors (e.g., "if...then," "unless").
- **Standard problem-solving techniques:**
 1. **Read carefully:** Understand the exact meaning of all statements and the question.
 2. **Identify the core argument/relationship:** For analogies, determine the relationship between the first pair. For critical reasoning, identify the premise(s) and conclusion.
 3. **Break down complex statements:** Simplify sentences to their core logical components.
 4. **Look for keywords:** Words like *therefore*, *because*, *however*, *if*, *then*, *unless*, *all*, *some*, *none* are crucial for logical deduction.
 5. **Test options:** For multiple-choice questions, evaluate each option against the given information.
 6. **Avoid outside knowledge:** Base your reasoning strictly on the provided text.

Word Meaning

Definition and core idea: This involves understanding the precise definition of a word, often in a given context, and choosing the option that best reflects that meaning.

- **Key properties and identities:**
 - Words can have multiple meanings; context determines the relevant one.
 - Knowledge of root words, prefixes, and suffixes can help deduce meanings.
- **Common pitfalls:**
 - Choosing a common meaning of a word when the context implies a less common one.
 - Misinterpreting the nuance or connotation of a word.

- Ignoring contextual clues.
- **Standard problem-solving techniques:**
 1. Read the sentence or phrase containing the word carefully.
 2. Try to infer the meaning of the word from its context (surrounding words, overall sentence meaning).
 3. Look for synonyms or antonyms within the sentence that might provide clues.
 4. Break down the word into its root, prefix, and suffix if applicable.
 5. Substitute each option into the sentence to see which one makes the most sense.
 6. Eliminate options that are clearly incorrect or irrelevant.

Word Pairs

Definition and core idea: This question type presents a pair of words that share a specific relationship, and you must identify another pair of words from the options that shares the same relationship (analogies).

- **Important formulas, theorems, and results:**
 1. **Common Relationship Types:**
 - **Synonym:** *Happy : Joyful*
 - **Antonym:** *Hot : Cold*
 - **Part-Whole:** *Finger : Hand*
 - **Cause-Effect:** *Rain : Flood*
 - **Tool-User:** *Pen : Writer*
 - **Object-Function:** *Knife : Cut*
 - **Category-Member:** *Fruit : Apple*
 - **Intensity:** *Warm : Hot*
 - **Producer-Product:** *Baker : Bread*
 - **Action-Object:** *Read : Book*
- **Key properties and identities:**
 - The relationship must be consistent across both pairs.
 - The order of words in the pair often matters (e.g., cause-effect is different from effect-cause).
- **Common pitfalls:**
 - Identifying a weak or incorrect relationship in the original pair.
 - Finding a relationship in the options that is similar but not identical to the original.
 - Ignoring the order of the words in the pair.
- **Standard problem-solving techniques:**
 1. **Identify the precise relationship:** Clearly define how the two words in the given pair are related. Be specific (e.g., "is a type of," "is used to," "is the opposite of").
 2. **Formulate a sentence:** Create a simple sentence that expresses the relationship (e.g., "A finger is a part of a hand").
 3. **Apply the sentence to options:** Test each option by plugging its words into your sentence. The option that fits best is likely the answer.
 4. **Consider nuances:** If multiple options seem plausible, re-evaluate the strength and specificity of the relationship.
 5. **Check for order:** Ensure the order of the words in the option pair matches the order of the relationship in the original pair.

Quick Formula Reference

For Verbal Aptitude, "formulas" refer to core rules, structures, and patterns. Here's a consolidated list:

- **Articles:**
 - 'a': Singular, countable, consonant sound.
 - 'an': Singular, countable, vowel sound.
 - 'the': Specific, unique, or previously mentioned.
 - Zero Article: General plural/uncountable/abstract nouns, proper nouns.
- **Comparative Forms:**
 - 1-syllable: *Adj + -er / -est*
 - 2-syllable ending in -y: *Adj(-y → -i) + -er / -est*
 - 2+ syllables: *more / most + Adj*
 - Irregular: *good → better → best, bad → worse → worst*, etc.
- **English Grammar (Core):**
 - Sentence Structure: *S + V + O* (common).

- Subject-Verb Agreement: *SingularS* → *SingularV*, *PluralS* → *PluralV*.
- Tense Consistency: Maintain consistent tense.
- Parallelism: Similar items in same grammatical form.
- **Pronouns:**
 - Agreement: Pronoun matches antecedent in number, gender.
 - Case: Subjective (*I, he, she, we, they*) for subjects; Objective (*me, him, her, us, them*) for objects.
- **Tenses (Basic Structures):**
 - Simple Present: $S + V1 + (s/es)$
 - Present Continuous: $S + is/am/are + V - ing$
 - Present Perfect: $S + has/have + V3$
 - Simple Past: $S + V2$
 - Past Continuous: $S + was/were + V - ing$
 - Past Perfect: $S + had + V3$
 - Simple Future: $S + will/shall + V1$
- **Phrasal Verbs:** *Verb + Preposition/Adverb* (often idiomatic meaning).
- **Statement Sufficiency:** Evaluate Statement 1 alone, then Statement 2 alone, then both together.
- **Statements Follow (Deductive Logic):** If *Premise*₁ and *Premise*₂ are true, then *Conclusion* MUST be true. Use Venn Diagrams.
- **Word Pairs (Analogies):** Identify the specific relationship $A : B$ and find $C : D$ with the same relationship.

Important Tips for GATE

1. **Build a Strong Vocabulary:** Many questions (Synonyms, Antonyms, Word Meaning, Most Appropriate Word, Word Pairs, Phrasal Verbs, Phrase Meaning) directly test vocabulary. Read widely, use flashcards, and learn root words, prefixes, and suffixes.
2. **Master Grammar Rules:** Questions on Articles, Comparative Forms, English Grammar, Grammatical Error, Incorrect Sentence Part, Prepositions, Pronouns, and Tenses require a solid understanding of fundamental grammar. Practice identifying common errors.
3. **Read Actively and Critically:** For Passage Reading, Narrative Sequencing, and Verbal Reasoning, don't just read passively. Actively look for main ideas, supporting details, logical connections, transition words, and author's tone. Practice skimming and scanning.
4. **Context is King:** For vocabulary-based questions and even grammar, the context of the sentence or passage is crucial. A word's meaning or the correct grammatical form can change depending on its usage. Always read the full sentence.
5. **Practice Time Management:** Verbal Aptitude questions can be time-consuming, especially Passage Reading and Sentence Ordering. Practice solving questions under timed conditions to improve speed and accuracy. Don't get stuck on one question; move on and return if time permits.
6. **Eliminate Options Strategically:** For multiple-choice questions, if you're unsure of the answer, try to eliminate obviously incorrect options first. This increases your chances of selecting the correct answer, especially if negative marking is less severe.
7. **Don't Overthink Verbal Reasoning:** For Statement Sufficiency and Statements Follow, stick strictly to the information given in the statements. Do not bring in outside knowledge or make assumptions. Focus purely on logical deduction.
8. **Review Common Pitfalls:** Be aware of common errors like subject-verb agreement, pronoun-antecedent agreement, tense shifts, double comparatives, and literal interpretation of idioms. Regularly review these tricky areas.

Answer key

11.9.3 Passage Reading: GATE CSE 2013 | Question: 63

After several defeats in wars, Robert Bruce went in exile and wanted to commit suicide. Just before committing suicide, he came across a spider attempting tirelessly to have its net. Time and again, the spider failed but that did not deter it to refrain from making attempts. Such attempts by the spider made Bruce curious. Thus, Bruce started observing the near-impossible goal of the spider to have the net. Ultimately, the spider succeeded in having its net despite several failures. Such act of the spider encouraged Bruce not to commit suicide. And then, Bruce went back again and won many a battle, and the rest is history.

Which one of the following assertions is best supported by the above information?

- A. Failure is the pillar of success.
- B. Honesty is the best policy.
- C. Life begins and ends with adventures.
- D. No adversity justifies giving up hope.

Answer key

11.9.4 Passage Reading: GATE CSE 2014 | Set 1 | GA | Question: 6

The Palghat Gap (or Palakkad Gap), a region about 30 km wide in the southern part of the Western Ghats in India, is lower than the hilly terrain to its north and south. The exact reasons for the formation of this gap are not clear. It results in the neighbouring regions of Tamil Nadu getting more rainfall from the South West monsoon and the neighbouring regions of Kerala having higher summer temperatures.

What can be inferred from this passage?

Select one:

- A. The Palghat gap is caused by high rainfall and high temperatures in southern Tamil Nadu and Kerala
- B. The regions in Tamil Nadu and Kerala that are near the Palghat Gap are low-lying
- C. The low terrain of the Palghat Gap has a significant impact on weather patterns in neighbouring parts of Tamil Nadu and Kerala
- D. Higher summer temperatures result in higher rainfall near the Palghat Gap area

11.9.12 Passage Reading: GATE CSE 2022 | GA | Question: 6

Some people believe that "what gets measured, improves". Some others believe that "what gets measured, gets gamed". One possible reason for the difference in the beliefs is the work culture in organizations. In organizations with good work culture, metrics help improve outcomes. However, the same metrics are counterproductive in organizations with poor work culture.

Which one of the following is the **CORRECT** logical inference based on the information in the above passage?

- A. Metrics are useful in organizations with poor work culture
- B. Metrics are useful in organizations with good work culture
- C. Metrics are always counterproductive in organizations with good work culture
- D. Metrics are never useful in organizations with good work culture

gatecse-2022 verbal-aptitude passage-reading two-marks

Answer key

11.9.13 Passage Reading: GATE CSE 2025 | Set 1 | GA | Question: 6

"I put the brown paper in my pocket along with the chinks, and possibly other things. I suppose every one must have reflected how primeval and how poetical are the things that one carries in one's pocket: the pocket-knife, for instance the type of all human tools, the infant of the sword. Once I planned to write a book of poems entirely about the things in my pocket. But I found it would be too long: and the age of the great epics is past."

(From G.K. Chesterton's "A Piece of Chalk")

Based only on the information provided in the above passage, which one of the following statements is true?

- A. The author of the passage carries a mirror in his pocket to reflect upon things.
- B. The author of the passage had decided to write a poem on epics.
- C. The pocket-knife is described as the infant of the sword.
- D. Epics are described as too inconvenient to write.

Nimbus clouds are dark and ragged, stratus clouds appear dull in colour and cover the entire sky. Cirrus clouds are thin and delicate, whereas cumulus clouds look like cotton balls.

It can be inferred from the passage that

- A. A cumulus cloud on the ground is called fog
- B. It is easy to predict the weather by studying clouds
- C. Clouds are generally of very different shapes, sizes and mass
- D. There are four basic cloud types: stratus, nimbus, cumulus and cirrus

Answer key **11.9.19 Passage Reading: GATE2012 AE: GA-10**

In the early nineteenth century, theories of social evolution were inspired less by Biology than by the conviction of social scientists that there was a growing improvement in social institutions. Progress was taken for granted and social scientists attempted to discover its laws and phases.

Which one of the following inferences may be drawn with the greatest accuracy from the above passage?
Social scientists

- | | |
|---|---|
| A. did not question that progress was a fact. | B. did not approve of Biology. |
| C. framed the laws of progress. | D. emphasized Biology over Social Sciences. |

Answer key **11.9.20 Passage Reading: GATE2012 AR: GA-10**

The documents expose the cynicism of the government officials – and yet as the media website reflects, not a single newspaper has reported on their existence.

Which one of the following inferences may be drawn with the greatest accuracy from the above passage?

- A. Nobody other than the government officials knew about the existence of the documents.
B. Newspapers did report about the documents but nobody cared.
C. Media reports did not show the existence of the documents.
D. The documents reveal the attitude of the government officials.

Answer key **11.9.21 Passage Reading: GATE2012 CY: GA-6**

One of the legacies of the Roman legions was discipline. In the legions, military law prevailed and discipline was brutal. Discipline on the battlefield kept units obedient, intact and fighting, even when the odds and conditions were against them.

Which one of the following statements best sums up the meaning of the above passage?

- A. Thorough regimentation was the main reason for the efficiency of the Roman legions even in adverse circumstances.
B. The legions were treated inhumanly as if the men were animals.
C. Discipline was the armies' inheritance from their seniors.
D. The harsh discipline to which the legions were subjected to led to the odds and conditions being against them.

Answer key **11.9.22 Passage Reading: GATE2014 AE: GA-3**

Rajan was not happy that Sajan decided to do the project on his own. On observing his unhappiness, Sajan explained to Rajan that he preferred to work independently.

Which one of the statements below is logically valid and can be inferred from the above sentences?

- A. Rajan has decided to work only in a group.
B. Rajan and Sajan were formed into a group against their wishes.
C. Sajan had decided to give in to Rajan's request to work with him.
D. Rajan had believed that Sajan and he would be working together.

Answer key

11.9.23 Passage Reading: GATE2014 AG: GA-7

Moving into a world of big data will require us to change our thinking about the merits of exactitude. To apply the conventional mindset of measurement to the digital, connected world of the twenty-first century is to miss a crucial point. As mentioned earlier, the obsession with exactness is an artefact of the information-deprived analog era. When data was sparse, every data point was critical, and thus great care was taken to avoid letting any point bias the analysis. From "BIG DATA" Viktor Mayer-Schonberger and Kenneth Cukier. The main point of the paragraph is:

- A. The twenty-first century is a digital world
- B. Big data is obsessed with exactness
- C. Exactitude is not critical in dealing with big data
- D. Sparse data leads to a bias in the analysis

Answer key

11.17.8 Verbal Reasoning: GATE CSE 2020 | GA | Question: 4

The dawn of the 21st century witnessed the melting glaciers oscillating between giving too much and too little to billions of people who depend on them for fresh water. The UN climate report estimates that without deep cuts to man-made emissions, at least 30% of the northern hemisphere's surface permafrost could melt by the end of the century. Given this situation of imminent global exodus of billions of people displaced by rising seas, nation-states need to rethink their carbon footprint for political concerns, if not for environmental ones.

Which one of the following statements can be inferred from the given passage?

- A. Nation-states do not have environmental concerns.
- B. Nation-states are responsible for providing fresh water to billions of people.
- C. Billions of people are responsible for man-made emissions.
- D. Billions of people are affected by melting glaciers.

11.17.9 Verbal Reasoning: GATE CSE 2020 | GA | Question: 6

Goods and Services Tax (GST) is an indirect tax introduced in India in 2017 that is imposed on the supply of goods and services, and it subsumes all indirect taxes except few. It is a destination-based tax imposed on goods and services used, and it is not imposed at the point of origin from where goods come. GST also has a few components specific to state governments, central government and Union Territories (UTs).

Which one of the following statements can be inferred from the given passage?

- A. GST is imposed on the production of goods and services.
- B. GST includes all indirect taxes.
- C. GST does not have a component specific to UT.
- D. GST is imposed at the point of usage of goods and services.
